Hillview Designs
~Jane Doidge

As a longtime fabric artist/printmaker, discovering the medium of wire has been like wandering into a new playground for the first time and seeing strange yet invitingly familiar equipment.

I've learned that copper and silver wire can also be knitted, crocheted, woven, twisted, braided and embossed to create one-of-a kind pieces.

I'm continuing to let my curiosity discover new ways of borrowing old techniques to create wire formed treasures, integrating gemstones, beach glass and found objects with the wire design, often with surprising results!
